LabelPress-XP

Type de revêtement:	Polyuréthane
Applications possibles:	Counterparts for label printing
Gamme de dureté:	95 Shore A
Couleurs disponibles:	noir, bleu
Epaisseur conseillée:	min. 6 mm - max. 20 mm
Résistance à la température:	Sec: continu 75°C / en pointe 85°C Humide: continu 45°C / en pointe 55°C
Propriétés et avantages:	Excellent resistance to deformation even in continuous procesExcellent resistance to deformation even in continuous process. Very high load resistance, very good dynamical properties with low heat build-up. Remarkable abrasion, cut and tear resistance. High resistance against printing solvents.s Very high load resistance, very good dynamical properties with low heat build-up Remarkable abrasion, cut and tear resistance High resistance against printing solvents
Caractéristiques:	Propriétés "release" Rugosité constante en surface
Produits de nettoyage conseillés:	Water, soap & detergents, alcohol based cleaners
